INTRODUCTION

The Seven Standards

1. Strategies to embed an organisational **culture of child safety**, including through effective leadership arrangements;
2. A **child safe policy** or statement of commitment to child safety;
3. A **code of conduct** that establishes clear expectations for appropriate behaviour with children
4. Screening, supervision, training and other **human resources practices** that reduce the risk of child abuse by new and existing personnel;
5. Processes for **responding to and reporting** suspected child abuse;
6. Strategies to **identify and reduce or remove risks** of child abuse;
7. Strategies to promote the **participation and empowerment of children.**

Each of the Standards must also be understood and applied in the context of:

- The cultural safety of Aboriginal children;
- The cultural safety of children from a culturally and/or linguistically diverse background;
- The safety of children with a disability

Policy

Risk

It is not just the Child Safety Officer or committees role to assess risks, we all must;

- Analyse situations/processes in preventing and minimising the chance of incidents before they happen
- Risk assessments
 - Performed regularly – a staggered approach can be beneficial
 - Examine all aspects of the clubs operations and facilities
 - Contact the CSO if you see a perceived risk
- We all must be aware of behaviour that could be misconstrued
 - Eg. A trainer taking a child into the rooms alone could give the wrong impression, even though treating the child is part of their role (*if possible take another person in with them*).

Reporting

Child abuse is an act or omission by a parent, caregiver, other adult or child that endangers or impairs a child's physical or emotional health and development.

Types of child abuse include:

- **Physical, emotional, sexual and neglect**
- **Family violence:** occurs when children are forced to live with violence between adults in their home, and can be very harmful. Exposure to family violence places children and young people at increased risk of physical injury and harm, and has a significant impact on their wellbeing and development.
- **Grooming:** is the behaviours used to prepare a child with the intention of sexually abusing them. This includes building a trusting relationship with a child and their parents/carers, and 'special relationships' and spending time alone with children or outside the work role. It graduates from attention-giving and non-sexual touching to increasingly intimate and intrusive behaviours.

Reporting

The following are types of abuse and examples/signs to look out for;

Physical abuse is intentionally causing or threatening to cause physical injury to a child, or inadvertently causing injury as a consequence of physical punishment or physically aggressive treatment.

Examples: Physical assault, hitting, shaking, restraining, etc.

Signs: Bruises, cuts, burns, fractures, covering up seemingly unnecessarily

Emotional abuse occurs when a person engages in inappropriate behaviours such as rejecting, ignoring, humiliating, isolating, threatening or verbally abusing a child, or allowing others to do so.

Examples: Yelling, ignoring, teasing, verbal abuse, bullying, etc.

Signs: Delayed physical/emotional development, withdrawn, low self esteem, shy, agitated, anxious, self harming

Reporting

Sexual abuse is when any person uses their authority over a child to involve the child in any sexual activity.

Examples: Fondling genitals, masturbation, penetration, voyeurism and exhibitionism, exposure to pornography, sexting, etc.

Signs: Bruising, withdrawal, anxious, over-sexualisation, secretive, low self-esteem, weight loss, self-harming

Neglect means failing to meet a child's basic needs such as providing adequate food, drink, shelter, clothing, supervision, hygiene or medical attention.

Examples: Withholding any basic need, lack of emotional support, no security or stability, withholding education, etc.

Signs: Hunger, lack of clothing, homeless, poor hygiene, stealing, skinny, tired, regularly ill, attention seeking

Important to remember: not all child safety issues are criminal or high-impact. The definition of child abuse covers negligence and minor cases of inappropriate behaviour or communication

Reporting to Club CSO

If you suspect a child is being abused any way as highlighted above please contact the club Child Safety Officer (CSO).

If a child comes to you alleging something has occurred to them or a friend please contact the CSO

It is not your responsibility to investigate the alleged incident that is the role of the CSO.

If you provide the CSO with whatever information you have on hand they will do the rest.

Ensure you follow the next slides "Do's" and "Don'ts" if a child provides you with information pertaining to abuse allegations

Reporting to Club CSO

DO	DON'T
Reassure the child / young person that you believe them	Make promises that you cannot keep
Be calm, supportive and reassuring	Promise not to tell anyone
Reassure them that the abuse is not their fault	Push the child to give details of the alleged abuse
Concentrate on their feelings rather than on questions and answers	Use leading questions
Explain what you are going to do now that you have been told (talk to CSO)	Leave the child alone in a distressed state, or write things down during conversation

Club Responsibility

Empowerment

- About ensuring children feel confident enough to speak up and know they will be listened to and taken seriously
- Giving children a voice in their football/netball experience, not just safety issues
 - If they see their opinions are taken on board with smaller things (eg training or social events) they will likely feel more comfortable to speak up about something serious
- Embracing and celebrating differences and personalities
 - Cultural, language, beliefs, disabilities etc
- Work as a collective group and discuss with children any initiatives they may want or you think would be a good idea (buddy system).
